

Trusted PPE Factory for Global Industrial Safety

Full Production Line | Strict QC | OEM & Wholesale Export

ChiBiao Protection Technology (Hubei) Co.,Ltd.

◆ ABOUT US

Chibiao Protection Technology (Hubei) Co., Ltd. is a professional PPE manufacturing enterprise, located in Hubei, China, with its own independent large-scale production base and complete industrial workshops.

We specialize in the R&D, production and supply of full-series personal protective equipment, covering safety helmets, high-visibility reflective vests, industrial safety shoes, Fall arrester safety belt, dust mask and supporting protective accessories.

As a genuine source factory, we integrate production, quality inspection, warehousing and export in one system. With complete production lines, stable monthly output and strict in-house QC laboratory, we ensure consistent product quality, standardized testing and international certification compliance.

We also provide one-stop PPE supporting services, including product selection solution, customized logo, OEM & ODM, personalized packaging and fast bulk delivery.

Relying on strong manufacturing strength and rich export experience, our products are exported to Europe, America, Middle East, Africa and Southeast Asia. We offer factory direct price, stable supply chain and professional foreign trade service, becoming a reliable long-term PPE partner for global industrial buyers.

Core Strengths

- 1、100% Factory Origin
No middleman, direct manufacturer, cost-effective price.
- 2、Full Production Capacity
Complete production lines, large monthly output, stable delivery.
- 3、Strict In-house QC System
Raw material inspection, Process inspection, Finished product testing.
- 4、Full Range PPE Supply
Helmets, vests, safety shoes, respirators — one-stop purchasing.
- 5、Custom & OEM Available
Custom color, logo, packaging according to your demand.
- 6、Global Export Experience
Familiar with international trade, professional after-sales support.

H-314A

FACE SHIELD

- Aluminum alloy support mesh
- The face shield is made of environmentally friendly black steel wire mesh.
- Suitable for wearing with a safety helmet, effectively blocking
- chemical splashes, particle impacts, cutting and abrasive applications.
- Single piece weight: 160 grams
- Packaging quantity: 100 sets per carton, gross weight: 22 kg, carton dimensions: 46*46*42 cm
- Complies with GB-14866-2006 standard

H-313A

FACE SHIELD

- Aluminum frame, 1.0mm PVC/PC aluminum edging
- Screen made of environmentally friendly PVC/PC material
- Screen color: Transparent yellow/brown
- Screen thickness: PVC 1.0mm / PC 1.5mm with aluminum edging
- Suitable for use with safety helmets, effectively blocking chemical splashes, particle impacts, cutting, and grinding.
- 1.0mm PVC unit weight: 221g
- Packaging quantity: 100 sets/carton of 1.0mm PVC units with double-sided protective film, 100 pieces per carton
- Weight: 23kg, Carton dimensions: 46*46*42mm
- Meets GB/T3609.1 standard

H-213AF

SAFETY GOGGLES

- Venetian blinds, protective eyewear
- Frame made of environmentally friendly PC material, available in four colors: clear, black, teardrop, and sapphire blue.
- Lenses made of PC material, offering high clarity and anti-fog/scratch resistance.
- Venetian blind temple design ensures excellent breathability and a comfortable wearing experience.
- Suitable for environments with chemical splashes, particulate impacts, and dust accumulation.
- Weight per pair: 30g/40g
- Packaging quantity: 300 pairs per box, gross weight 18kg, box dimensions: 82*31*56cm
- Complies with GB-14866-2006 standard

SAFETY GOGGLES

203mm eye protection

Frame made of environmentally friendly PVC material, yellow with a blue tint

Lenses made of PC material, anti-fog and scratch-resistant

Adjustable headband for comfortable wear

Suitable for environments with chemical splashes, particle impacts, and dusty conditions

Individual weight: 107g

Packaging quantity: 200 pairs/box, weight: 23kg, box dimensions: 78*41*42mm

Meets GB-14866-2006 standard

H-205A

SAFETY GOGGLES

205 Protective Goggles

Frame made of environmentally friendly PVC material, transparent in color

Lens made of PC material, anti-fog and scratch-resistant

Headband is highly adjustable for comfortable wear

Suitable for situations with chemical splashes, particle impacts, and dusty environments

Single weight: 43 grams

Packaging quantity: 200 pairs/box, weight: 18.5 kg, box dimensions: 78*41*42 cm

Complies with GB-14866-2006 standard

H-202A

SAFETY GOGGLES

202 Protective Goggles

Frame made of environmentally friendly PVC material, available in transparent, black, red, yellow, and blue colors.

Glasses made of PC material, anti-fog and scratch-resistant, available in transparent and colored versions.

Headband is highly adjustable for comfortable wear.

Suitable for situations involving chemical splashes, particle impacts, and dust, including skiing and military applications.

Single weight: 105 grams

Packaging quantity: 200 pairs/box, weight: 18.5 kg, box dimensions: 78*41*42 cm

Complies with GB-14866-2006 standard.

H-322A

WELDING MASK

Automatic Photoelectric Welding Cover - External Adjustment - 322. The cover is made of environmentally friendly PP material. The headband knob is adjustable, and it comes with sponge for comfortable wear.

Color: Black, other colors can be customized

Single weight: 403 grams. Can be equipped with a headlamp, true color vision, lens size: 90*110MM

The lens uses an imported LCD screen, with external adjustment of delay, sensitivity, and darkness.

Packaging quantity: Individual with protective film, 12 pieces/box, weight: 15 kg, box dimensions: 80*35*53 cm

Complies with GB-14866-2006 standard

Suitable for strong light radiation and glare from electric welding, TIG welding, MIG welding, plasma welding, etc., effectively blocking chemical splashes, particle impacts, cutting, grinding, and other impacts on the eyes. Lens quantity can be customized.

H-323B

WELDING MASK

Automatic dimming welding shield-323, shield made of environmentally friendly PP material

Headband knob adjustable, with sponge padding for comfortable wear

Color: Black, Single weight: 272 grams, can be equipped with a headlamp

Vision: True color/green light/white light/ordinary black glass

Mirrors have built-in battery, solar charging, automatic dimming

Mirrors are available in three types: true color/non-true color/black glass, size: 50*108MM

Packaging quantity: 40 pieces/box, weight 15 kg, box dimensions: 55*45*58 mm

Complies with GB-14866-2006 standard

Suitable for strong light radiation and glare from electric welding, TIG welding, MIG welding, plasma welding, etc., effectively blocking chemical splashes, particle impacts, cutting, grinding, and other impacts on the eyes. Core quantity can be customized.

H-319A

WELDING MASK

Autonomous Photoelectric Welding Mask - External Adjustment - 319

The mask is made of environmentally friendly PC material, which is more heat-resistant, provides a wider field of vision, and the headband knob is adjustable.

Equipped with sponge for comfortable wear.

Color: Black top green screen; Single weight: 430g; Headlamp compatible

Glass filter, green vision; Mirror size: 90*110MM

Imported LCD lens; External adjustment of delay, sensitivity, and darkness

Packaging quantity: Individually with bubble wrap, 12 pieces/carton; Weight: 15kg

Carton dimensions: 61.5*48.5*40

Complies with GB-14866-2006 standard

Suitable for use in situations involving strong light radiation and glare from welding, TIG welding, MIG welding, plasma welding, etc.; effectively blocks chemical splashes, particle impacts, cutting, grinding, and other impacts on the eyes. Core quantity can be customized.

200 pairs/box,10 boxes/box	foam PU	lightyel-low

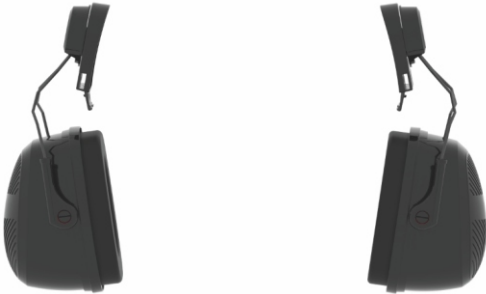

Noise-canceling earplugs, elastic foam PU type, high-level noise reduction, surface anti-fouling treatment, wearable safety vest, individually packaged, one pair per small bag.

earplugs Silicone Version

carton size	diameter	Material	color
100pairsperbox	7—13mm	Silicone version	orange

These noise-canceling earplugs are made of TPR thermoplastic rubber, are Christmas tree style, and are reusable without needing to be rubbed. They fit snugly in the ear canal and are comfortable to wear. Each pair comes in individual packaging, one per small bag.

earmuffs Plug-in Noise-canceling Earcups

Number of boxes	material	color

The soundproof enclosure comes with a hand cover, an insert-type design, and can be equipped with four different safety caps for various uses.

It features a double-layer structure with deep inner holes and ultra-high-density absorbent sponge. The inside of the hand cover is filled with high-efficiency absorbent sponge; the dense gaps in the sponge maximize noise reduction.

Noise level: SRR: 31dB SNR: 37dB. The PU edging is soft and elastic, with good resilience and will not deform. It features telescopic adjustment and 360-degree rotation. Suitable for: noisy rooms, factories, workshops, etc.

Plug-in Noise-canceling Earcups Head-Mounted Noise-Cancelling Earplugs

Number of boxes	material	color

Headband-style noise-canceling helmet, compatible with various helmets. Double-layered structure with deep inner holes and high-density absorbent foam. The interior of the helmet is filled with highly effective absorbent foam; the dense gaps in the foam significantly reduce sound transmission. Noise reduction: SRR: 31dB SNR: 37dB. Soft and elastic PU edging with good resilience and no deformation. Adjustable height and 360-degree rotation.

Suitable for: noisy spaces, factories, workshops, etc.

MULTIPLE FILTRATION

The headband is made of TPR soft rubber, offering a comfortable, durable, and easy-to-clean fit. It features an adjustable headband with a user-friendly design, allowing for adjustable tightness. It includes a genuine product label and a cold-flow exhalation valve that closes during exhalation to ensure thorough air filtration and opens during breathing to reduce heat and moisture buildup. It provides 360-degree sealing protection, filtering smog, benzene and its homologues, nitrobenzene, carbon tetrachloride, organic gases, and vapors.

Suitable for environments with toxic substances such as paint spraying, pesticides, formaldehyde, and chemicals.

Material: Rubber/Silicone

Style TYPE: 330D/3800

Sealing UP: 360° full-seal protection

Safety standard: GB2890-2009

APPLICATION SCENARIOS: Suitable for painting processes in industries such as mining, shipbuilding, hardware manufacturing, and metal smelting.

high efficiency filtering gas mask	830D	GB2890-2009	360° full-seal protection

cold flow breathing valve

clip assembly

Fit to face contour

Made of soft, one-piece molded silicone, comfortable, durable, and resistant to toxic gas penetration. Features an adjustable headband with a user-friendly design for adjustable tightness. High-density activated carbon effectively filters organic gases and vapors from the air, including smog, benzene and its homologues, nitrobenzene, carbon tetrachloride, and other organic gases. Includes five layers of thickened KN95 filter cotton. Suitable for environments with toxic substances such as paint spraying, pesticides, formaldehyde, and chemicals.

Material: Rubber/Silicone

SEALUP: 360° full-seal protection

Safety Standard: GB2890-2009. Application Scenarios: Suitable for painting processes in industries such as mining, shipbuilding, hardware manufacturing, and metal smelting.

Name: Easy Wearable Safety Rope	Load-bearing tensile strength: 15 kN
Style: Half-body/Full-body	Overall load capacity: 1500kg
Material: Polyester fiber + metal components	Locking load capacity: 2200kg
Tape: 45mm wide	Warranty: 3 years for quality, 1 year for service life
Weight: 1.3 kg	Usage scenarios: engineering protection, power construction, platform operations, etc.

Full double hook

model	waist ruler	Suitable for weight	Applicable height
One size fits all	80-130CM	50—90KG	160-190CM

New national standard: GB6095-2021

Name :	Connecting rope
Material quality :	Polyester fibre
Fittings of a machine :	Alloy steel
Locking load:	2200kg

SAFETY SHOES

Labor protection shoes-Black leather model

model	pigment	size	Function
116 models	black	36-44	It is anti-break, anti-puncture, anti-wear, anti-slip, anti-water and anti-dust.

Material: Cow Split Leather
 internal: High-quality B K net fabric
 sole : Rubber anti-slip shoe sole
 INSOLES: Odor-resistant insoles
 S I Z E : 3 6 / 3 7 / 3 8 / 3 9 / 4 0 / 4 1 / 4 2 / 4 3 / 4 4
 Usage scenarios : Suitable for mining, machinery, forestry, logging, construction, power, metallurgy , and other fields.

Trusted PPE Factory for Global Industrial Safety

Core Strengths

1、 100% Factory Origin

No middleman, direct manufacturer, cost-effective price.

2、 Full Production Capacity

Complete production lines, large monthly output, stable delivery.

3、 Strict In-house QC System

Raw material inspection Process inspection Finished product testing.

4、 Full Range PPE Supply

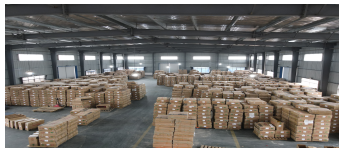

Helmets, vests, safety shoes, respirators — one-stop purchasing.

5、 Custom & OEM Available

Custom color, logo, packaging according to your demand.

6、 Global Export Experience

Familiar with international trade, professional after-sales support.
